

MORNINGSIDE ESTATE

Special Services

We understand that when you come to Morningside you want to be pampered. There are many services that we can provide for you that will add that special touch to your experience...Here are the 'extras' we offer you.

The gardens at Morningside Estate are extraordinary and provide a continuous source of material for us to work with. Each year, thousands of flowers bloom and Janet takes the flowers and makes exquisite bouquets from them. Flowers add such a nice touch to any event. Here are some of her past creations.

Wedding flowers, seasonal bouquets, table settings, festival occasions or bouquets...Janet does them all.

Would you like to arrive at Morningside with your shelves and fridge stocked with your favourite foods? We do that...

We have a GPS so that you can find your way around without the stress of getting lost. We have lots of spots that former guests have gone that are 'marked'. If you would like to use our GPS, just ask...

Morningside Estate has two open routers so no matter where you are (inside or outside) you will be able to connect to our high speed Internet connection.

Morningside Estate is equipped with cable television throughout but there is one entertainment centre that is HDTV and BluRay disc player in the Great Room.

Spa services are available on site from a practicing aesthetician. She will provide a range of services in your room from pedicure and manicure to massage services. It is necessary to check availability well in advance as it requires a bit of co-ordination.

Would you like someone to make your bookings? We do that.

We know the best fishing charters, the best tours, the funky little place to eat that you would not likely discover on your own. We are happy to make the arrangements for you.

Just let us know well in advance so that we can make the bookings.
